

Port of Corpus Christi

The Port of Corpus Christi, located in Corpus Christi, Texas, is the fourth largest United States port in total tonnage and the country's largest crude export port. The port provides a straight, 45 ft. deep channel (approved and authorized for 52 ft.), and quick access to the Gulf of Mexico and the entire United States inland waterway system. The port delivers outstanding access to overland transportation, with on-site and direct connections to BNSF Railway, and direct, vessel-to-rail discharge capabilities. The Nueces River Rail Yard provides eight tracks for storage of unit trains up to 8,500 ft. long.

TERMINAL CAPABILITIES

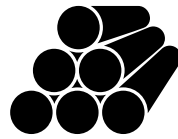

- **Berths:** 19
- **Depth:** 13 ft. - 47 ft.
- **Facilities:**
 - Bulk Terminal Dock 1:

TERMINAL CAPABILITIES OVERVIEW

CARGO DOCK 9

- Berths: One
- Slip length: 750 ft.
- Dock length: 660 ft.
- Depth: 38 ft.
- Rail-served: Apron served by three shipside railroad tracks
 - Covered rail track loading on landside
- Facilities:
 - Dockside shed space - 122,000 sq. ft.
 - Free span open dock space - 38,280 sq. ft., 58 ft. wide

CARGO DOCK 8

- Ship slip length: 1060 ft.
- Dock length: 865 ft.
- Depth: 45 ft.
- Rail-served: on-dock
- Facilities:
 - Load limit - 1,500 lbs./sq. ft.
 - Open wharf area - 163,053 sq. ft.
 - Two parallel waterside shipside tracks available and crossover tracks for access to backside of dock

CARGO DOCK 10

- Slip length: 750 ft.
- Dock length: 665 ft.
- Depth: 38 ft.

CARGO DOCKS 14 & 15

- Berths: Two
- Slip length: 1,060 ft.
- Dock length: 938 ft.
- Depth: 36 ft.
- Rail-served: 49-ft. wide apron served by double shipside railroad tracks
- Facilities:
 - Dockside shed space - 173,000 sq. ft.

BULK TERMINAL Dock 1

- Berths: One
- Slip length: 900 ft.
- Dock length: 396 ft.
- Depth: 34 ft.
- Rail-served: Railcar switching service is available for loading/unloading

BULK TERMINAL Dock 2

- Slip length 1,270 ft.
- Dock length: 575 ft.
- Depth: 45 ft.
- Rail-served: Available for unloading to vessels
- Equipment:
 - 1,500 tons per hour radial ship loader can load vessels directly from trucks, railcars and conveyor system extending into bulk storage yards
 - Hoppers can accommodate three dump trucks simultaneously or one railcar

BULK TERMINAL Dock 3

- Berths: One
- Slip Length: 700 ft.
- Depth: 40 ft.
